

COME OUT- COME OUT -FROM WHEREVER YOU ARE !

OutRage '69

Join us to view *Out Rage '69* a video from the KQED four part documentary "The Question of Equality." This important movie tells our story upfront and out-front through interviews and archival footage. *Outrage '69* speaks from within and without our movement with issues ranging from the multi-issue Gay Liberation Front, the split and the forming of the GAA by those interested in a predominately white single issue movement, Sylvia Rivera's response to the denouncing of drag queens at the 1973 PRIDE, the founding of the NGTF, a discussion of White Power within the GAA and much more.

A movie not to be missed by anyone who is interested in our Queer and Diverse history as told by those who lived through those days.
